FEBRUARY 15 2022

Very late for appointment

FEBRUARY 13 2022

As always my doctor was amazing! Very personable, warm and articulate regarding my care.

FEBRUARY 12 2022

She was extremely judgmental and lacked basic bedside manner. Also told me that she felt certain imaging results should be removed from my health record because she found them confusing, which was very concerning that she wanted to essentially pretend they didn't exist. I also attempted to provide her with past medical records but she didn't want to see them. Overall I did not have much faith in her ability based primarily on the fact that she didn't alleviate any of my concerns (and I was told to come to a gynecologist based on advice from my primary care), and gave me no steps forward for what I should do concerning my symptoms and imaging results. It felt as though she didn't really care what was going on and just wanted to finish the appointment and go through the motions.
