SEPTEMBER 16 2020

My impression of the Glenview office is very positive: helpful staff and absolutely on time on both of my visits. This may sound trivial, but the physical setup of the exam room has a good feel. When a doctor or assistant is seated at the computer, they are also able to look at and speak directly to me as the patient

assistant is seated at the computer, they are also able to look at and speak directly to me as the patient as they ask questions and enter data rather than facing toward a wall! As a result I feel like a person who is part of a conversation rather than an assembly of mal-functioning body parts.

I met Dr Eimer in the Er for the first time. I was sent to Lake Forest by my primary physician due to heart issues from being sick the whole month of January. Dr. Eimer happened to be there and took care of me for the first time. He was absolutely the best. It didn't take long to feel that I was in good hands. I had a procedure done that I knew nothing about and did not have time to research. He took his time explained everything to me, gave me choices, and I went with what he recommended. I kept him as my cardiologist after I was released.I am fine now and I have him to thank for for it. He is a wonderful compassionate man as well as doctor. The staff, from the minute I got to the ER until I was released was awesome. I'm grateful to all for that I came in contact with.
