APRIL 20 2024

Regarding my problem with facial hyperpigmentation, I initially sought treatment at Rush, next was University of Chicago, then a cosmetic facility. None of these people helped me, the problem was getting worse, at this point I was really getting frustrated and depressed. then I began to search for a dermatologist at Northwestern in order to get another opinion. That's when I found Dr. Aderibigbe, first of all she examined me in a way no one else ever had, and started treatment on me. She thoroughly explained every step of what my treatment would be, she told this would be a lengthy process, so I needed to be patient. If one would look at the photos taken on my initial visit, and the ones taken yesterday, I don't even look like the same person, my skin now looks great!!!! All the treatments she Rx for me made my skin return to normal. This doctor really knows what she is doing. She accomplished what the other people couldn't. She is a valuable asset too your dermatology department.
