FEBRUARY 8 2022

This is the first time I have seen this physician so I do not have enough experience to form a solid opinion at this time. Possibly after I have followed her recommended treatment I will be able to make a better informed opinion.

Dr. Gutti was honest with me.

FEBRUARY 4 2022

Very disappointed in the mask wearing BS. not following the science on this one. Hospital corporate BS. Mask is used for surgery used for two things so nothing gets dropped into the open wound and that blood doesn't splash onto the face. If masks stop virus no one would ever catch a cold flu etc.. stop the brain washing ...doesn't seem to remember suggesting CBD to me in the past which I tried it didn't work.

JUNE 29 2021

She is trying to uncover the cause of my stroke. Dr. Gutti has given me good advice on how to avoid future strokes. I truly appreciate her kind demeanor.

JUNE 15 2021

She listened to me and answered all my questions. She was very reassuring and made me feel better about my situation

JUNE 8 2021

I appreciate that she took time in my first visit to spend extra time to ask on many symptom areas and family history. She was also able to take time to listen to my ideas and things I had tried to resolve pain.

MAY 25 2021

The attending doctor used leading questions. She had her mind made up and took no new information on board. Her very attentive practice nurse had asked me a slew of questions before the doctor came in, yet the doctor refused to read any of it. This made me anxious and tense. I'm mentally ill and being put on the spot didn't make me feel like I was valued. My symptoms were trivialized and pawned off as 'psychological' instead of the doctor ensuring that they weren't physiological, which was the entire intent of my visit.

MAY 21 2021

MAY 20 2021

She was good

MAY 19 2021

Doctor seemed very pessimistic about the whole situation and we left very unsatisfied as well as feeling like more could have been done but was not accounted for.

MAY 12 2021

Dr Gutti has great bedside manners. She takes time and has a genuine concern and interest in her patients.

MAY 10 2021

She took time to listen and respond our medical concerns.
