Dr. Martin is very informative and helpful when guiding us through our daughter's milestones. He has provided a variety of well informed options for us to try when we had questions about allergies, illnesses, sleep training, nutrition, and behaviors. We appreciate his guidance.

AUGUST 29 2022

He's been my daughter's pediatrician for a few years now. He has experience with his own children, he will work to find out what works for your child, he speaks in terms you (as a non-medically educated parent) can understand and truly cares about your children

AUGUST 16 2022

He didn't address my concerns for my kid, felt like he wasn't really listening to the complaints.

AUGUST 16 2022

No wait and very professional

AUGUST 14 2022

While doctor was friendly and knowledgeable I feel like he didn't really listen to my concerns. This was a walk in appointment for an infant who has had the same symptoms for almost a week. While it may have been a minor diagnosis I would at least like to feel heard instead of brushed off with statistics thrown at me.

AUGUST 12 2022

AUGUST 12 2022

Helpful but spoke too fast and seemed to be rushed

AUGUST 11 2022

Great doctor, easy going, easy to understand, caring.

AUGUST 11 2022

Condescending. The provider should be reminded of the NM values. Perhaps his standard of care and bedside manner has been compromised after years of service with NM.

JULY 18 2022

I spoke to Dr Martin about the incident and he cited "safety" as the justification for needing to hold down a toddler on his back. He did not take the time to listen to what happened or explain in any detail the protocol.

JUNE 28 2022

He is wonderful, thorough, and kind.

JUNE 27 2022

The doctor seem very insensitive and like he was rushing through my child's appointment. However the ladies at the front desk and the medical assistant were very nice. I was just meeting doctor Martin for the first time and I will not be taking my child back to him. He seemed very judgmental asking why I didn't get my child evaluated sooner but I didn't see a problem with his progress until 2 1/2 almost 3 years old. Dr Martin was shaking his head as he talked to me like shame on you. Then the resources he wrote down no longer do medical evaluations and he didn't give me specific numbers just the names of the places.

MAY 13 2022

He at first was very sure it was one condition. Then I said something and he started doing a check and ruled out that condition. I think if he were more thorough he would have checked at first himself to rule out that condition without me having to prompt him.
