**Dr Later was incredibly thorough and detailed. He spent an hour with us and asked many questions. He listened to us and addressed our concerns. It was clear that he had thoroughly reviewed all the data we brought to him two weeks before our visit. We came to him for a second opinion, but we're so impressed we made him our primary neurologist. We are totally comfortable with him.**

MARCH 16 2018

**I feel like Dr. Later is putting a lot of effort into diagnosing and helping my symptoms. He explains things very well and listens well. I'm probably not the easiest patient at this time and I have some trouble communicating, but he's straight forward and patient. I've had my migraines and symptoms for some time and I've made a lot of progress under his care-both in feeling better and having a better understanding of what's happening and what can and can't be done. I'm really great full for the time and effort he's given this far. I**
