JANUARY 17 2022

It is so hard to find a Dr now a days that listens & hears, asks questions from a place of curiosity with the desire to actually help & resolve your questions & concerns. That uses his KSA to interpret how you are feeling & your body is feeling not just checking off a box that a "particle basic blood test" was done so moving on. If every visit is like my first, I wish I could clone him for my pcp. Wow!

OCTOBER 20 2021

Dr. Later still tries to be warm but the whole process was very mechanical. I think he means well but unless he's got a clear diagnosis he doesn't give you the time of day. I'm dealing with a serious and unnerving health issue and there is no direction for what to do next, nor compassion for dealing with it.

OCTOBER 18 2021

This was my first time seeing Dr. Later and he was so thorough with my exam, listened intently and explained so much to me about different options to better help my migraines. I haven't had a Dr. visit like this in such a long time. He was patient, kind, caring, encouraging and extremely helpful in designing a new plan for me. I feel so much better already on the new medication he gave me. I highly recommend Dr Later for anyone experiencing migraines.
