NOVEMBER 16 2021

She was fantastic. She reassured this old man that he wasn't in danger of keeling over, at least not in the next hour or so, during which our conversation ranged from the heart, the home, the classroom, the Congress. It was one of the most invigorating doctor visits I have ever had. (Maybe she was just trying to get my heart racing! Success in that department!) Her professionalism was in evidence as she tried to assure me that when laymen read what doctors write (if they can even read it) they often misunderstand the language. What sounded dire and full of doom to me, words like "regurgative" and the plain but deceptive "gross," were not always words to die by. Dr. Kansal metaphorically took my hand and led me away from "dangerous" vocabulary!
