Dr Opal is knowledgeable, professional, and helpful. He listens to my concerns and provides a clear explanation of the issue.

Dr Opal is very knowledgeable, has a "good bedside manner", listens to my answers, answers my questions. asked for my permission for the resident to be present. Relying on my previous visits, my perception of my progress and current activities, my visits with other medicals providers along with our dialog at my visit, he reaches a quick diagnosis and how I should proceed from that point. He also said i should schedule a follow-up. He also asked about my family; specifically about my daughters who are doctors .
