MARCH 30 2022

Dr. Mutharasan is an outstanding cardiologist! He expresses genuine care for his patients, truly listens during symptom discussion, and goes above and beyond to offer options to support the patient's medical condition and lifestyle. I am truly grateful for the care I have received and his willingness to think outside the box then addressing a challenging set of symptoms. He has answered every question I had inside the clinic as well as on My Chart, and I always leave his office with a sense of ease knowing I am in receiving exceptional care and that I have the support of a top-notch provider.

MARCH 30 2022

My expectations for all medical personnel at NM is to be at the top in medical knowledge and technical proficiency. In my experience this holds pretty true. The difference maker is, using an old term, unparalleled "bed side manner". Dr Mutharasan has that in spades. His knowledge and ability to communicate that knowledge in a calming, understandable manner, to me, means so much to a patient. The description I use when recommending him in that "he makes you feel better just walking in the room". As the younger generation would say, he is a "Rock Star". A humble physician who I believe makes a difference every single day.
