SEPTEMBER 14 2020

**Dr. Cisko and Dr. Matthew are great!**

SEPTEMBER 14 2020

**The doctors are great!! The surgery center procedure room staff not so much. During my Shot procedure on August 20th my left foot was fractured when it hit a railing. I know I was moving around during the procedure that's probably why the railing was up. I was pretty out of it because I was coming out of anesthesia but remember hitting my foot on the railing. Why wasn't the railing put down for me to get off the table. The manager of the Surgery Center said no one saw anything which sounds even worse. Was no one watching me getting off the table???? I got an x-ray the following Monday after going to Dr. Ignatius. They said no foot bone injury. So 2 weeks later I go to Dr. Matthew for follow up and she sends me to Dr. Cisko. That takes another week to see her. So on September 10th Dr. Cisko says she thinks I have a hairline fracture or 2 and that's why it still hurts so much. I am NOT going to sue anyone!! I would just like a little something for me PAIN and SUFFERING. I now have to stay off my foot for three weeks. I am a realtor and I can't work if I can't walk. FYI, If I need more shots in my back, I would go back to Dr Matthew and the surgery center. Accidents do happen and maybe I moved too fast, who knows.  
**Sincerely, Mary Ann Manna****
