NOVEMBER 7 2019

This was my first appointment/meeting with Dr. Clark. He was very focused on me and took lots of notes.

As we talked he had thoughtful questions and concerns which lead to more questions and eventually to a medical and healthful plan of action. Dr. Clark followed up to test results right away (the next day I think). His well worded comments made me feel his sincere care for my well being. There was/is an doctor patient bond that was formed. Thank you for taking the additional time during this first visit. I greatly appreciate this "extra" time and care.
