**She is an amazing surgeon. She is very thorough and detailed oriented. She found 2 tumors in my bladder that were small yet they were malignant. I have Dr. Collins to thank for that.**

NOVEMBER 30 2021

**Dr. Collins & colleagues give personal attention to each patient.**

NOVEMBER 25 2021

**Dr. Collins was very professional. I felt the team cared, but it had been a bit since I had completed the on-line survey which assisted in describing the different options. The decision on plan of care is not so straightforward, but I felt a bit pushed to come up with a plan. The resident had brought in a consent at the end of the visit. I was explained the procedure, but not so much the risks. I did receive the education in my portal following the appt and the materials provided me a much better picture of the procedure and risks. I consider myself pretty informed so am concerned about those not so informed about healthcare.**
