AUGUST 17 2021

Dr. Resnick is a skilled surgeon. He walks one through all the steps of the surgery (procedure) before hand. He was carrying on this excellent conversation with me as he continued with the procedure. In some ways, he's unflappable. I like the way he doesn't over-promise. Dr. Resnick knows the biology and he has a warm, personal style. One time I heard him speak at a conference. He said that the creator gave us two of everything (almost). If you can't use one, you can use the other. How he was in the conference and how he is in person, is one and the same.
