OCTOBER 27 2020

I just really like Dr. Zubair. I did not like the appt process. A promised call to schedule colonoscopy instead of 48 to 72 hrs. took over a week. If I had not called, I am not sure any follow-up. Then was told my insurance didn't cover but I asked again and was told it did. I had expected manager to call me back to discuss. I have linked my Advocate with Delnor. I do expect some continuity. I also had shared advanced directives plus been a pt previously. Was told that I needed an appt pre colonoscopy which was not required for my husband. I was so grateful that Dr. Zubair permitted a tele visit to limit my exposure to COVID potentially.

It was a matter of months after his diagnosis and treatment that I went into remission. We are a fit. The other doctor was a good doctor, He just didn't see my problem. I was a teacher. Some teachers are better with teaching a certain kind of child. Perhaps doctors are better treating some diseases than others. They are all good doctors. They just have their own specialty.
