NOVEMBER 2 2020

Excellent care by a professional staff. Also, in my 74 years I have never received a better post procedure checklist. This may seem small but to receive very specific instructions (I had three procedures performed) that are tailored to my case has been invaluable.

NOVEMBER 2 2020

This is the third time that Dr. Yoo has done mosh procedures on me. He is always very efficient and explains what he is doing.

NOVEMBER 2 2020

Excellent Doctor

NOVEMBER 1 2020

I liked the doctor. I was impressed with his obvious skill with his field and equipment. I was a little frightened at first (like a kid) by his full-scale personal protection equipment, but he communicates through the masks just fine. His friendliness was very welcome, and if I needed such surgery again, I would hope to have him perform it.

NOVEMBER 1 2020

I have little experience to compare with, but my observations were all positive. I was treated kindly and kept informed of what was happening before, during, and after my surgery. Great care was taken to be sure all cancer cells were removed, and the closing of the wound was done with great care. My instructions for what to do and to avoid during this week following were very clear.

OCTOBER 30 2020

Extremely capable, informative

OCTOBER 30 2020

Excellent care

OCTOBER 29 2020

Dr. Yoo is very expert in his field. Nonetheless, I was perturbed that whereas Dr. Yoo was carefully protected with full PPE and personal filter, the nurse, who was near me the whole time, had only a mask. Also, the fellow and residents were not as well protected. Why is that the case? The nurse, I believe her name is Amy, was very helpful to me. I believe the nurses should always be encouraged to introduce themselves with their last name and title (e.g. Nurse Smith) to accord respect and proper pay for their work.

OCTOBER 11 2020

My previous surgery by Dr. Yoo has healed beautifully into my wrinkles. He is precise in what he is doing. He listens to me and checks back on my records to review what I am speaking about.

OCTOBER 11 2020

Dr.Yoo is wonderful as are the nurses, etc. Dr. Marks does not act as quickly as I think he should with basal cell carcinomas. The basal cell carcinoma that was removed this week was there over a year ago. He prefers to use cryosurgery which doesn't leave a scar. Otherwise I would have rated the above question as a 10.

SEPTEMBER 20 2020

The doctor is friendly and informative, the nurse is also confident and reassuring.

SEPTEMBER 19 2020

Dr. Yoo is just fantastic..the surgery was painless. Apparently I have had this cancer for some time now, and obviously should have addressed it sooner. When I saw how much tissue was removed from my face, I was scared. I couldn't comprehend how it could possibly be stitched back up. Dr. Yoo was able to do it. I am amazed at his skill, and consider myself very fortunate to have had him as my surgeon!!

i'm a patient of dr colavincenzo's. at the risk of drama, i feel she's saved my life several times with the spots she has seen that another doctor might not have. dr yoo as well has done superior mohs surgeries at least four times. he is a meticulous surgeon and my scars are barely visible. he is comfortable and has a great sense of humor and conversation to put his patient at ease. it should be noted that the nursing staff is so knowledgeable and helpful in dr yoo's office and they have a good rapport with him which helps in a somewhat stressful time. i come from st charles which is inconvenient and takes up the day but would never consider another practice specifically because of these two physicians.
