FEBRUARY 22 2022

Fast, personable. Explained what he was doing, asked me questions to keep my mind off of what he was doing. Laughed at my jokes. ?? My only complaint is really all the time between him having to go back in for more surgery. Glad they got it all. But between being called back in it was nearly a two hour wait (even the last time when they said it would be less than an hour). I was there so long I lost track. Makes me wonder if they are short staffed of people reading the slides. Or if they are overbooked.
