I trust her capabilities, she explained everything thoroughly but didn't use medical jargon and was down to earth.

AUGUST 4 2022

Dr Jordan is brilliant. She clearly cares both about my safety, but also about what it is that I wanted out of this surgery. I know that some surgeons can take their own kind of... artistic liberties, I guess, with surgeries like this, but she wanted to know exactly what *I* wanted. She was also realistic. She told me exactly what was and was not possible, what the potential complications would be, answered all questions that I had. I'm only a week out and I'm already pleased with my results and I know it will continue to get better as I heal. I feel very lucky to have her as my surgeon.

JULY 9 2022

Dr. Jordan is a rarity in healthcare. She is clearly excellent at what she does, but more importantly she is very careful and affirming to every patient. I know because when I shared about my experience with her I received multiple other accounts of amazing experiences from other queer people. Dr. Jordan is incredible and her impact cannot be underestimated. I wish there were so many more of her and her team out in the world, helping people and, in some cases, saving lives.
