Dr. Liszewski has made a huge difference in my well being since he came to NWMH. He has gotten to the bottom of my condition diagnostically, explained everything in detail in terms I understand, and has eased my suffering. I feel like I am on the right path for the first time since December 2018.

JULY 6 2021

Dr. Liszewski seems ultra knowledgeable and very talented. I am hopeful he can help me. However, he is the fifth doctor I have seen about my skin condition, and none of the prior four have been successful in helping me. So I have to see how this progresses.

JUNE 10 2021

Dr. Liszewski listened to me, was personable, but efficient. It was the best dermatology visit I've ever had. I also liked the remote scribe. It seems like scribes are common in dermatology but I prefer just having my doctor in the room and no one else. I hope Northwestern continues this practice even after COVID is over.

JUNE 10 2021

He was very friendly. Asked me questions and from their examined and gave me my options to treatment. He could have very easily have told me I had to do patch test but he was honest and said I didn't have to go through that at the moment because it looked like I was getting better rather than worse by changing certain products I use.

MAY 14 2021

Dr. Liszewski made it very easy for me to understand what specific substance I am allergic to, and ways to avoid having issues with that allergen in the future. I also consented to having residents and med students in the room with me, and during my evaluation, I noticed that he seemed like an enthusiastic and thorough teacher to the trainees. They all seemed to be comfortable with him, and he allowed space for them to express their thoughts. It made the experience a good one for me as I felt very well attended-to.
