**Only complaint is how hard it is to get an appt with Dr Huang. My appointment was on 4/12 and was told to have a follow up in 6 months - which would be October. The first available appointment was in Jan.....why tell me to make an appointment in 6 months?**

APRIL 9 2021

**He is clear in his communications and caring about in his messaging when assessing for health and wellness.**

APRIL 9 2021

**Because he honestly cares**

APRIL 8 2021

**Nice guy but a little too conservative in his approach regarding getting lab work before an appointment so we can discuss in person. Plus, it took over a year for incorrect information to be removed from emails I was receiving. I had been on one medication that I stopped taking in August of 2019. For the next year, the doctor would get my lab results, and email that my thyroid was in normal range, and to keep taking said medication at current levels-when I wasn't taking that medication or any other from his office. Just seemed lazy to not be giving me current advice accurately.**

APRIL 5 2021

FEBRUARY 23 2021

**Very confident in his care.**

FEBRUARY 19 2021

**Seems very knowledgeable, but bedside manner leaves a bit to be desired. I felt like I could not ask question, he would talk over me when I did, and he prescribed a medication without explaining to me what it was for. On the flip side, he followed-up and provided me with test results quite late in the evening, so I felt like he takes my situation seriously. Good dr, in person interaction could be some better.**
